---

*Healthy Homes for Healthy Mothers and Children*

---

Project no.: J2544

Funded by: Knights of the Holy Sepulcher- Holland

## Project Objective and Description

The Project has two main aims which are to assist needy families with house rehabilitation for a better and healthy living environment and creating new job opportunities for the local Christian workers. This donation supported a family consist of 5 family members, mainly children. In addition, the project assisted 9 Christian workers secure jobs. This involved helping families live in a better environment and creating new jobs for young unemployed workers.

In addition to the house that was renovated the following benefit from the project:

- 5 office and on-site staff
- 9 workers
- 5 suppliers
- 5 Subcontractors

## Family Social Survey

1	Family Name	Mai Nassar
1.1	Beneficiaries of the family members in the house	1) Khader: Husband/D.O.B 8/2/1952/ sick/unemployed. 2) Mai: Wife/D.O.B 14/7/1963/ Healthy/teacher. 3) Rami: Daughter / D.O.B 11/7/1988 /Healthy/ Chef. 4) Yousef: Daughter/ D.O.B 20/2/1991/Healthy/Worker. 5) Bruno: Daughter/ D.O.B 20/4/2006/Healthy/ Student.
1.2	Family Story	Khader is living with his wife and children in their own house which contains from three rooms, a kitchen and a bathroom. The house is neat and clean. Khader used to work in olive wood but due to eye problems and going under several operations, he stopped working, he is also suffering from heart problem and he needs Catheterization. Mai is working in a day-care nursery, Rami is working as a chef, Yousif is working as a worker with little wages. Mai is trying her best to keep the house in a good shape although it needs a lot of renovation works. The bathroom is very old and water leaks through the tiles. The kitchen needs also new wall tiles and mechanical piping since the existing pipes are rust and leak water, also there is a need of painting and changing the old steel windows of the TV room.
1.3	Description of Rehabilitation works	1. Demolishing works for the bathroom and old steel windows in the TV room 2. Plastering Works. 3. Mechanical works and final fix installations for the Bathroom. 4. Tiling works for the Bathroom walls and floor and the wall above the kitchen cabinets. 5. Painting works. 6. Electrical works and final fix installations for the bathroom.

		7. Installation of new aluminum windows.
